

GREAT ZIMBABWE UNIVERSITY

NOTICE TO ALL STUDENTS

Inception of the Modularisation Teaching and Learning system

GZU is introducing the modularization system of teaching and learning. Semester modules shall no longer be taught for the entire duration of the semester but shall rather be taught and examined in about 6 weeks of every semester.

The aspects of the modular system

- An academic year shall be divided into 4 quarters, meaning a semester will be divided into 2 quarters.
- Half of the semester modules will be taught and examined in a quarter of the semester.
- Students will be required to register for all modules taken in a semester at the beginning of each semester.
- Results will be published quarterly and decisions will be given at the end of the semester.

Registration for the year 2023

- Registration for the first semester will commence as scheduled and students are encouraged to pay their fees and register earlier so that they do not lose out on lectures and examinations.
